

# SHARP KIDS PRE-PRIMARY SCHOOL

415 Kirkness Street,  
Clydesdale,  
Pretoria.

Dear Parent

Sharp Kids provide a unique, high-quality early learning experience for toddlers and young children. Our philosophy encompasses both care and education, fostering independent, creative learning and self-confidence in an environment designed specifically for young children.

The Sharp Kids programme supports the belief that children learn best through play and active participation in a variety of developmentally appropriate activities. As educators, we value the close ties between a child and their family and encourage a strong reciprocal relationship between home and school. We find it of great value to introduce our newcomers to the school and should you and or your child want to spend a few hours or a morning and experience Sharp Kids before enrolling – you are more than welcome.

Should your child be accepted at Sharp Kids you need to please complete the registration form attached. Once you have paid the required non-refundable registration fee, we would like you to complete a full questionnaire. This is to help us to get to know your child and his or her specific needs better. Please complete it and send it back together with your signed fee agreement.

We want to assure you that we will do everything possible to help your child experience academic, social and emotional growth.

Warm regards,

Karen Prinsloo
